

ASSIGNMENT-2

Name- Atul Kumar

Reg Id:-12102801

Course code:-CAP777

Question1:-Write a code to implement the array function.

arr_change_key,sort(),arr_reverse,array_serach

Source Code

```
<?php
$age=array("Atul"=>"35","Shivam"=>"37","Amit"=>"43");
print_r(array_change_key_case($age,CASE_UPPER));
$fruit=array("Mango","Apple","Pineapple","Banana",);
print_r(array_chunk($fruit,2));
$a=array("a","Atul","b","Balram","c","Cittu");
print_r(array_reverse($a));
$fruit = array("Mango", "Apple", "Pineapple");
sort($fruit);
$b=array("a"=>"red","b"=>"green","c"=>"blue");
echo array_search("red",$b);
?>
```

Output:-

```
Array ( [ATUL] => 35 [SHIVAM] => 37 [AMIT] => 43 ) Array ( [0] => Array ( [0] => Mango [1] => Apple )
[1] => Array ( [0] => Pineapple [1] => Banana ) ) Array ( [0] => Cittu [1] => c [2] => Balram [3] => b [4] =>
Atul [5] => a ) a
```

Question2:-Create a customer information form which takes an input box as customer id,email id, customer name,contact number and print this value when click on these by use redirection.

Source Code

```
<html>
  <head>
    <title>Customer Page</title>
    <style>

    </style>
  </head>
  <body style="text-align:center; margin-top: 50px ;" >
  <form action="" method="POST">

    <h1>CUSTOMER INFORMATION</h1>
    Customer ID: <input type="text" name="id"><br><br>
    Customer Name: <input type="text" name="name"><br><br>
    Email ID: <input type="email" name="email"><br><br>
    Contact Number: <input type="number" name="contact"><br><br>

    <button type="submit" value="display" >Submit</button><br><br>

  </form>
  <br><br><br><br><br>
  <?php
  if ($_POST)
  {
    // ... (PHP code for processing the form data) ...

  </form>
  <br><br><br><br><br>
  <?php
  if ($_POST)
  {
    echo "<h1>CUSTOMER DETAILS </h1>";
    echo "<b>Customer ID: </b>" . $_POST ['id']. "<br><br>";
    echo "<b>Customer Name: </b>" . $_POST ['name']. "<br><br>";
    echo "<b>Email ID: </b>" . $_POST ['email']. "<br><br>";
    echo "<b>Contact Number: </b>". $_POST ['contact']. "<br><br>";
  }
  ?>
</body>
</html>
```

Output:

CUSTOMER INFORMATION

Customer ID:

Customer Name:

Email ID:

Contact Number:

CUSTOMER DETAILS

Customer ID: 12102801

Customer Name: Atul Kumar

Email ID: atulcpr123@gmail.com

Contact Number: 7808580027
