

## CSS Table

### Display Table

- It configures a table with CSS. It is similar to HTML table.

HTML	CSS
table	display:table
tr	display:table-row
thead	display:table-header-group
tbody	display:table-row-group
tfoot	display:table-footer-group
colgroup	display:table-column-group
td,th	display:table-cell
caption	display:table-caption

Ex:

```
<!DOCTYPE html>
<html>
  <head>
    <title>Display Table</title>
    <style>
      .table {
        display: table;
        width: 100%;
        border: 2px solid darkcyan;
```

```
}
.table-head {
  font-weight: bold;
}
.table-row {
  display:table-row
}
.table-head, .table-cell {
  display: table-cell;
  padding: 1em;
  border:1px solid darkcyan;
}
</style>
</head>
<body>
  <div class="table">
    <div class="table-row">
      <div class="table-head">Name</div>
      <div class="table-head">Price</div>
    </div>
    <div class="table-row">
      <div class="table-cell">Samsung TV</div>
      <div class="table-cell">45000.44</div>
    </div>
  </div>
</body>
</html>
```
